August 2026

To the hiring team,

I'm glad to write in support of Jeffery Ferguson — "Phoenix" — whom I've represented and advised on a recurring basis since 2022 across several of his ventures and client engagements.

My work with Jeffery has included reviewing NDAs and IP term sheets ahead of multi-party business discussions, reviewing employment contracts, and representing From the Heart Productions — a nonprofit he does technology and operations work for — in a formal legal matter on the organization's behalf. Across these engagements, Jeffery has been organized and direct about what he needs from counsel, which makes the legal side of a project move faster and more accurately than it otherwise would.

He understands that good legal hygiene isn't an obstacle to moving fast — it's what lets you move fast safely — and he brings that mindset to every engagement I've been part of with him. I recommend him for any role that requires sound judgment about risk alongside technical and creative capability.
