To whom it may concern,

I am happy to provide a character reference for Jeffrey Ferguson. I have known Mr. Ferguson for over ten years. During my interactions with him I have been continually impressed with his ability to find and bring together some of the best talents in a variety of industries. I have witnessed his ability to manage and communicate with professionals towards the completion of projects.

My understanding is that many of these projects were large scale public events with an emphasis on cutting edge technologies and audience engagement. My personal impression of Mr. Ferguson is that he is an affable, capable and conscientious individual who puts extraordinary care and effort towards attempting the fulfillment of deliverables of the clients he serves.

I am happy to discuss your interests further and you may contact me via the details below.
